

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION 5  
77 WEST JACKSON BOULEVARD  
CHICAGO, IL 60604-3590

SEP 21 2011

REPLY TO THE ATTENTION OF:

The Honorable Michael Wiggins Jr., Chairman  
Bad River Band of Lake Superior Chippewa Indians  
P.O. Box 39  
Odanah, Wisconsin 54861

Dear Chairman Wiggins:

We have completed our review of your July 15, 2011 request to approve the Bad River Band of Lake Superior Chippewa Indians' (the Band) water quality standards. I am pleased to approve all components of the Band's submittal.

The U.S. Environmental Protection Agency reviewed the following standards submitted by the Band and has concluded that they are consistent with the Clean Water Act (CWA) and federal regulations:

- Section A. Background
- Section B. Territory Covered
- Section C. Applicability, Administration and Amendment
- Section D. Definitions
- Section E. General Considerations:
  - 1. Classification boundaries
  - 2. Antidegradation policy
  - 3. Antidegradation implementation
  - 4. Antidegradation demonstration
  - 5. Antidegradation decision
  - 6. Narrative criteria
  - 7. Specific numeric criteria
  - 8. Analytical methods
- Section F. Designated Uses
- Section G. Specific Classifications
- Section H. Numeric Water Quality Criteria
- Section I. Mixing Zones
- Section J. Severability

The Band's water quality standards are effective for CWA purposes as of the date of this letter. Section 303 (c) of the CWA requires states and authorized tribes to review and update their water quality standards at least once every three years. The Band's first triennial review should be completed no later than July 21, 2014, which is three years from the date that EPA received the Band's request.

If you have further questions, please contact me at (312) 886-3000 or your staff may contact Kathleen Mayo, Tribal Water Quality Standards Coordinator, at (312) 353-5592.

Sincerely,

A handwritten signature in black ink, appearing to be 'S Hedman', written in a cursive style.

Susan Hedman  
Regional Administrator
